SECTION 2 – PROMOTION AND GRADUATION
2-3 POLICY FOR USE OF PSAT/SAT SCORE AS EXIT CRITERION FOR GRADUATION 6-2010

POLICY:
For compliance with GS 115C-547-562, a nonpublic school must establish a minimum score on a nationally normed test as a graduation criterion. This test must measure competencies in the verbal and quantitative areas. Beginning with the Ridgcroft School class of 2014, the exit criteria for graduation at Ridgcroft School will be a score of 400 or better on both the verbal and math sections of the Preliminary Scholastic Achievement Test (PSAT) or a minimum score of 400 on both the verbal and math sections of the Scholastic Achievement Test (SAT).

PROCEDURE:

The PSAT will be administered to all freshmen and juniors, usually in October. Costs will be absorbed by the school. Students not achieving a minimum score of 400 on both sections will be required to take the PSAT each year until the score is met. Sophomores and seniors will take the test at the parent’s expense. If after the third PSAT test the student has not yet met the required score, they must take at least one SAT or ACT test at their own expense. The Academic Standards Committee will review the case of any student who has not met the score by the end of the 1st semester of their senior year. Students who have met all other Ridgcroft graduation prerequisites, except for the test scores, may be considered for a testing requirement exemption.

The PSAT will also be administered to all juniors to satisfy the requirement for nonpublic schools to use a nationally-normed test in the junior year. Costs will be absorbed by the school.

For students who transfer to Ridgcroft School, the school will absorb costs for two administrations of the PSAT. If a student enters in their sophomore year, he will be required to take the PSAT that year.

The SAT is given on multiple dates during the school year and the student is responsible for enrolling to take that test. Scores will be reported to the school.

The highest score on either part of the PSAT or SAT at any administration will be used to meet the exit criteria of 400 on the PSAT or the SAT.

Summative exams are important in the learning of essential concepts. Students should prepare for exams on a daily basis by taking good notes, doing homework, and studying for quizzes and tests.

At the end of each semester, middle and upper school examinations will be given to all students in grades 6-12. Exams shall count 20% of the semester average.

EXAM EXEMPTION – GRADES 6-11

Students in grades 6-11 will be eligible to be exempt from taking one second semester (final) exam each year.

Exemption will be granted based on the following provisions:

- (1) The student has a 90 average or better in that class.
- (2) The student has not been assigned any ISS/OSS during the school year.
- (3) The student has not more than 6 absences in that class.
- (4) The student has no absences in any class, including homeroom, that are the result of excessive tardies. Every three (3) tardies will be recorded as a tardy/absence (TA) and classroom TAs must be made up at a rate of one hour after school for every TA absence and homeroom TAs must be made up at a rate of one half hour after school for every TA absence.
- (5) The student is not allowed to exempt the same core class (Math, English, Social Studies, Science) on consecutive years.
- (6) The student has not had any Honor Violations from any class during the school year.
- (7) The student is not allowed to exempt courses that have an AP test.
- (8) The student has not received more than six (6) Discipline Referral Forms (pink slips).
- (9) Student has not received 12 or more tardies.

EXAM EXEMPTION – GRADE 12

Students in grade 12 will be eligible to be exempt from taking second semester (final) exams based on the following provisions:

- (1) The senior has acceptable grading and minimum absences as specified in the table below.
- (2) The senior has not been assigned any ISS/OSS during the school year.
- (3) The senior has not had any Honor Violations from any class during the school year.
- (4) The senior has not received more than six (6) Discipline Referral Forms (pink slips).
- (5) The student has no absences in any class, including homeroom, that are the result of excessive tardies. Every three (3) tardies will be recorded as a tardy/absence (TA) and classroom TAs must be made up at a rate of one hour after school for every TA absence and homeroom TAs must be made up at a rate of one half hour after school for every TA absence.

SECTION 4 – ASSESSMENT AND TESTING 4-2 POLICY FOR ACADEMIC HONESTY

Updated and Effective 9-27-10

Ridgcroft School Honor Code:

On my honor, I will not lie, cheat, or steal, nor will I aid another to lie, cheat, or steal, and I will report any violations I witness. I pledge to abide by the Honor Code and support the decisions of the Honor/Disciplinary Committee. (Posted in every classroom)

DEFINITION

Academic dishonesty or academic misconduct is defined to be any action or practice on the part of a student that involves getting credit for work that is not one's own or interferes with another student's ability to complete their work. This definition applies to Kindergarten through grade 12. Teachers are responsible to educate students with the various aspects of academic dishonesty and to assign penalties that are appropriate for the action and the grade level of the child. It is therefore expected that stronger penalties will be assigned to high school students in a effort to prevent academic dishonesty on a college level.

EXAMPLES include, but are not limited to:

- submitting another's work as one's own,
- obtaining/accepting a copy of tests or answer keys,
- giving/receiving test questions or answers,
- copying from another student's test/ homework,
- cheating on a test including the use of crib notes, giving of hand signals, or giving/getting information from another student either during the test or after taking a test,
- plagiarism (defined as the use or close imitation of the language and thoughts of another author and the representation of them as one's own original work),
- fabrication (defined as the falsification of data such as in a science lab, information, citations in any formal academic exercise)
- deception (defined as providing false information to a teacher/instructor concerning an academic exercise including claiming to have submitted work that he did not or giving a dishonest excuse for asking for a deadline extension)
- any actions to prevent others from completing their work

INTERNET USE

When using the Internet, as student must be cautious to avoid plagiarism. The teacher should define the use of citations and attributions to an author. Copying and pasting without reference is plagiarism. In addition, the teacher should work with the student to determine when sites have accurate information and which sites are open-source and therefore, could be questionable.

CONNECTION TO CHARACTER DEVELOPMENT

The effects of cheating is deleterious to an education system, but also has extended ramifications in the workplace and the personal behavior of the child in later years when he has not developed a strong sense of right and wrong.

CONSEQUENCES: Punishments for academic dishonesty vary according to the age of the party involved and the nature of the infraction and should be determined by the teacher, Headmaster, and/or Honor Committee as circumstances warrant. Teachers should maintain documentation.

STUDENT DUE PROCESS RIGHTS

Starting in the 1960s the [U.S. Supreme Court](#) began chipping away at the in loco parentis doctrine, giving college students more [civil liberties](#) such as the right of [due process](#) in disciplinary proceedings (Dixon v. Alabama Board of Education, 1961). In Cooper v. Blair (1973), specifically academic misconduct was ruled to require due process, being a disciplinary matter and not an educational matter. The due process rights of students in academic misconduct cases are not to the same degree as in a court of law. For instance, the student has no right to representation and the burden of proof is not necessarily stringent. In the "General Order on Judicial Standards of Procedure and Substance in Review of Student Discipline in Tax Supported Institutions of Higher Education", (1968) student due process rights were laid out as follows:

1. The student should be given adequate notice in writing of the specific ground or grounds and the nature of the evidence on which the discipline proceedings are based.
2. The student should be given an opportunity for a hearing in which the disciplinary authority provides a fair opportunity for hearing of the student's position, explanations, or evidence.
3. No disciplinary action may be taken on grounds which are not supported by any substantial evidence.

SECTION 5 – GRADING AND REPORTING 5-1 POLICY FOR GRADING

A teacher has the responsibility for developing a fair and consistent procedure for grading students. Teachers are responsible for posting their grading system and explaining it to students and parents.

Teachers will base classroom instruction and assessment on a standard course of study and/or set of objectives and will differentiate to provide learning experiences for the range and the ability of the students they teach. Grading will reflect achievement of competencies. By North Carolina law, the headmaster has the final authority to grade and classify students. If a situation with a student warrants review, the headmaster will meet with the teacher to discuss grade average and any necessary changes.

Grading Scales:

PRESCHOOL	GRADES K-2 CORE SUBJECTS	GRADES 3-12 CORE SUBJECTS
E-Exceeding Expectations	E-Exceeding Expectations	A 90-100
S-Satisfactory	S-Satisfactory	B 80-89
N-Needs to Improve	N-Needs to Improve	C 70-79
U-Unsatisfactory	U-Unsatisfactory	D 60-69
		F Less than and equal to 60
	GRADES K-2 ENRICHMENT SUBJECTS Refer to Policy 7-3	GRADES 3-12 ENRICHMENT AND ELECTIVE SUBJECTS Refer to Policy 7-3

PROCEDURES FOR REPORTING: The school year at Ridgcroft School is 180 days which is divided into six grading periods, each of about thirty days. Dates for the end of each grading period, each semester, and each interim report period are specified on the school calendar.

Report cards are issued at the end of each grading period. An interim report is issued midway through the grading period to inform parents of the student's progress.

GUIDELINES FOR GRADING:

The following chart and bullets are GUIDELINES for teachers. New teachers can use them as a beginning point for development of their grading system. Experienced teachers can use them as a comparison for their current system and a baseline for discussion with other teachers of students in the same grade.

- Guidelines for grade percentages of core subjects according to grade spans:

	GRADE K	GRADES 1-2	GRADES 3-5	GRADES 6-12
Classwork/Participation/Notebook/Home work	100%	65%	50%	35%
Quizzes/Tests	0%	35%	50%	65%
Note that as students move from kindergarten to the 12 th grade, more emphasis is placed on accountability of written quizzes and tests.				

- Grades should be numerical percentages computed from either a percentage of points or from letter grades assigned according to a rubric.
- Numerical grades should be stated on report cards and on interim reports when possible.
- Averages on report cards and interim reports should be averages determined from a sufficient number of grades.
- Misbehavior will not be a factor in calculating grades. Students who disrupt the learning process will be disciplined according to discipline policies and procedures. Students in grades K-5 have citizenship noted on their report cards.
- The practice of giving extra credit is not recommended.
- The maximum of any average is 100.
- Grading for a particular course or subject in a grade will be systematic, consistent, and objective for all students.
- The teacher will set high expectations. An A will reflect exceptional work in attaining of competencies in goals and objectives in the course and in demonstrating an ability to apply competencies to problem-solving situations.
- Retesting is appropriate in some situations such as when many of the grades on an assessment are low or if the student has a good reason for not performing as well as possible and has demonstrated that he has learned the material.
- Students with a diagnosed learning difference will be graded according to specification on the IEP.
- Elective courses in grades 6-12 will have either a numerical average or a letter grade.
- Grades below 50 can be recorded as a F on the report card. Numerical averages are put in the register. It is the responsibility of the student to discuss options and ways with the teacher to improve academic performance in the course.

GUIDELINES FOR CLASSWORK/PARTICIPATION/NOTEBOOK/HOMEWORK:

- Class work and participation can consist of cooperative work, individual work, discussion, board work, and class presentations.
- Students are expected to bring necessary materials and homework to class on a daily basis.
- Respectful class participation by students is encouraged and expected.
- Cooperative grouping is beneficial to students and therefore, recommended. It is the responsibility of the teacher to define the task, assign roles to group members, and share a grading rubric before initiating the task.
- Beginning in grade 2, students should understand the importance of maintaining an organized notebook. Teachers are encouraged to include notebook checks as an integral part of the grade average. Homework is defined as out-of-class tasks assigned to students as an extension or elaboration of class work and should be assigned on a regular basis for all core subjects. It is also recommended that elective course have regular outside assignments if feasible and appropriate.
- Students are expected to complete assignments on time. Students who do not do homework assignments on an appropriate timeline will receive grade penalties. For students who have excused absences, make-up work should also be completed on a timeline as designated by teacher.
- Parents can be supportive by setting expectations that students (1) will take notes in the classroom, (2) will read the textbook related to the assignment, and (3) will complete assignments on-time. It is not productive for parents to do the work for the student.
- Homework assignments as used for several reasons:

TYPES OF HOMEWORK	DEFINITION	EXAMPLE
PRACTICE	Practice assignments reinforce newly acquired skills.	Students who have learned a new math procedure have sample problems assigned.
PREPARATION	Preparation assignments help students get ready for activities that will occur in the classroom.	Students are assigned background research on a topic that will be discussed later in the week.
EXTENSION	Extension assignments are frequently long-term continuing projects that parallel class work.	Students apply previous learning to do authentic problems, a science fair project, or a term paper.

- The time spent on homework assignments should increase as the student moves from kindergarten to the 12th grade. The following table should be used as a guideline. Parents need to be aware that the same assignment given to different students will take different amounts of time to complete. It is appropriate for a second grade teacher, for example, to make a 30-minute (average) math assignment and a 20-minute (average) science assignment on one night or to assign a 40-minute reading assignment on another night.

TIME-ON-TASK GUIDELINES FOR HOMEWORK	AVERAGE TIME PER CORE SUBJECT	AVERAGE TOTAL TIME PER NIGHT	AVERAGE TOTAL TIME WEEKLY
GRADES K-1	5 minutes	10-20 minutes	60-120 minutes (1 to 2 hours)
GRADES 2-3	10 minutes	20-40 minutes	120-240 minutes (2 to 4 hours)
GRADES 4-5	15 minutes	40-60 minutes	240-360 minutes (4 to 6 hours)
GRADES 6-8	20 minutes	60-90 minutes	360-480 minutes (6 to 8 hours)
GRADES 9-12	30 minutes	90-120 minutes	540-720 minutes (9 to 12 hours)

GUIDELINES FOR QUIZZES/TESTS

- Announced and pop quizzes are allowable.
- Quizzes and tests should not be used as a punitive measure.
- Students have the responsibility to prepare for quizzes and tests and understand that low grades will impact course averages. They should be knowledgeable of the grading procedure for the class and the formatting of the test. Preparation for a quiz or test may differ depending on how the questions will be stated.
- It is the student's responsibility to schedule with a teacher an appropriate time to make up any quizzes and/or tests that are missed as a result of an excused absence.
- Teachers will announce major tests three to five days ahead of time.
- Middle school and high school teachers will also record major tests on the calendar outside the guidance office in an attempt to not overload students.
- Students with an Individualized Education Plans (IEP) will receive specified accommodations.
- Quizzes/tests will be graded within a reasonable period of time (usually two weeks).

PROCEDURE FOR COMPUTATION OF SEMESTER AVERAGE

The semester average is computed by averaging the three grading period grades and multiplying the average by four, adding that product to the exam grade, and dividing the total by 5. Averages that have .5 or more should always be rounded up. Therefore, each grading period will count 26.66% of the semester average.

SECTION 5 – GRADING AND REPORTING 5-2 POLICY FOR RETAKING COURSES

A student who makes a C or D in a middle school or high school course may reenroll in the same course for a second time. This is beneficial particular with sequential courses such as Algebra II and Precalculus. Both grades will show on the transcript, the higher one will be used in determination of grade point average (GPA). The student will not receive an additional unit of credit for the course.

SECTION 5 – GRADING AND REPORTING 5-3 POLICY FOR GRADING OF ENRICHMENT / ELECTIVE COURSES

- **Lower School**
- **Middle/Upper School**

LOWER SCHOOL ENRICHMENT COURSES INCLUDE:
Library/Media, Physical Education, Music, Art, Computers, and Spanish

GUIDELINES FOR GRADING ENRICHMENT COURSES – GRADES K-5

Teachers of elective courses will notify grade-level teachers if students are not participating or are being disruptive during enrichment courses. It is recommended that the enrichment teacher keep a clipboard with a student roster and make notes on a regular basis of nonparticipation or disruptive behavior. For excessive misbehavior, teacher should notify parent and the director of the lower school. This clipboard should be given to the grade-level teacher at the end of each grading period.

GRADE for Report Card	Maximum number of times that a teacher has to reprimand the student for nonparticipation or misbehavior when the class meets once a week or 6 times during grading period.	Maximum number of times that a teacher has to reprimand the student for nonparticipation or misbehavior when the class meets twice a week or 12 times during grading period.
M = Meritorious	0	0
S = Satisfactory	1-2	1-3
N = Needs to Improve	3	4-5
U = Unacceptable	More than 3	More than 5

MIDDLE / UPPER SCHOOL ELECTIVE COURSES INCLUDE:

Art/Band for grades 6-12, Introduction to Agriculture for grades 9-12, and Yearbook/Graphics Arts for grades 9-12

- Teacher may grade electives courses such as, Yearbook, Graphics Arts, with a numerical average; however, letter grades will be specified on the report cards.
- Grades in the following courses (Art, Band, Introduction to Agriculture, Yearbook, Graphics Arts) are not used when determining BETA Club qualification, college/university averages, and/or academic awards.

For classes that meet every day, a teacher may consider having the student earn a daily grade. For example, the six-week grading period has 30 days and the student will begin each grading period with a 100 average for the elective course. The student is expected to be engaged with the coursework each day, the entire period, and complete assignments according to the timeline. Each day the student is NOT in compliance with course requirements, the average will be lowered by 1 point. Another recommendation is to use the “daily grade” system as a percentage of the total average, combining it with test or project grades.

Misbehavior for middle and upper school students must be dealt with according to the Ridgcroft School Discipline Policy.

SECTION 5 – GRADING AND REPORTING
5-4 POLICY FOR GRADING OF HONORS AND AP COURSES

Ridgecroft computes grade point averages (GPAs) on a 4.0 scale for all standard coursework in the upper school.

The grading scale at Ridgecroft School is as follows:

90-100	A
80-89	B
70-79	C
60-69	D
59 and below	F

All numerical averages that are .5 or higher are rounded up.

Courses designated as “Honors” (H) are accelerated and require stronger background and more intensive preparation than other courses. These courses are weighted .5 point on the GPA Scale. These courses are noted as H on the transcript. Honors courses offered at Ridgecroft School include H Pre-calculus, H Physics, H Chemistry, and H English.

Courses designed as “Advanced Placement” (AP) are designed to address goals and objectives for a college-credit course and are assessed by a College Board Advanced Placement examination. Colleges and universities will assign course credit based on the grade from the AP exam. These courses are weighted 1 point on the GPA Scale. These courses are noted as AP on the transcript. AP courses that have been approved to be offered at Ridgecroft School include AP Calculus, AP English Literature, and AP US History.

Additionally, courses offered through dual enrollment according to the Huskins agreement with Roanoke Chowan Community College will also carry a .5GPA weighting since they are college-credit courses.

SECTION 6 – ATTENDANCE
6-1 POLICY FOR ATTENDANCE

Ridgecroft School encourages regular attendance. Research indicates that the amount of learning is correlated to the amount of time spent “on task” by students. Students are expected to be in school except during times of illness or family emergencies. Early dismissal of a student for reasons not related to school activities is discouraged since it will result in a class absence. Special school-approved field trips, activities including sport events are designated in the management system as a SCHOOL EVENT, but are not considered part of the 165 days. Seniors and juniors are allowed three days to visit colleges. These days do not count in the 165 days of required school attendance and will be designated as COLLEGE DAY on the grading software.

Students have the responsibility to obtain assignments from the teacher, a classmate, or the website, preferable ahead of time, when they are absent. Parents are ultimately responsible to ensure school work is completed on-time and deficiencies are resolved. If school work is not made up, the grade can be penalized.

Teachers are responsible to monitor and record absences. The teacher should make a contact with the parent in cases of excessive absences, defined as more than three per grading period, and also make the director aware of the situation.

Parents will be notified of absences regularly on the report card.

6.1.1 LOWER SCHOOL PROCEDURES

Students in grades K-5 are encouraged to attend school regularly. Absences will be monitored and noted on the report card. Students who have excessive absences, more than 3 per grading period (10%) or 15 for the school year (8.3%) will be referred to the director and/or headmaster.

Students in grades K-5 who have permission to sign out and leave school early will be considered absent if they miss more than 50% of the school day (more than 3.5 hours).

EFFECTIVE IN 2009-2010, student in grades K-5 must attend 165 out of 180 days of school to be considered for promotion. (Refer to policy 2-1). Extenuating circumstances will be considered by the Headmaster upon written request by the parent.

6.1.2 MIDDLE AND UPPER SCHOOL PROCEDURES

To obtain credit for a course, a student must be present 165 out of the 180 class days unless there are extenuating circumstances. Teachers are responsible to record absences on the management system (Chalkable) and submit the record once a week. Students who miss more than 15 days of class at Ridgecroft School may request a permission from the teacher/ headmaster to develop a plan to make up time.

Upper school students who are enrolled in college-credit coursework through the Roanoke Chowan Community College must comply with the RCCC attendance policies in order to receive credit for the course.

Students in grades 6-12 who have permission to sign out and leave a class early will be considered absent if they miss more than 50% of the class time (more than 25 minutes).

NOTIFICATION BY PARENT FOR ABSENCES

1. When an absence is anticipated, the parent should make the school office aware of it. The student should tell the teachers and get assignments.
2. If the absence is not anticipated, the parent is asked to notify the school before 9:00 am. If the school is not notified, they may call the parent to confirm an absence.
3. If the school was not notified before or on the day of the absence, it is recommended that the student bring a note from the parent specifying the reason for the absence when he returns to campus. Absences will be designated on the grading software.

MEDICALLY-RELATED EXTENDED ABSENCES

When a medical conditions force extended or periodical absences, it is recommended that the parent call the school officials and apprise them of the situation and work out a plan to get assignments and make-up tests.

To prevent transmission of contagious diseases, a child will not be permitted to attend school if it has been less than 24 hours since any of the following symptoms: (1) fever of 99.5 or above, (2) vomiting, or (3) diarrhea. If the child does come to school without having the necessary time after the symptoms, the parent will be asked to return to pick up the student.

Students leaving school with ailments such as headaches, toothaches, physical injuries, food/environmental allergies may return to school the next day at their physician’s or parent’s discretion.

This will result in a lowered grade. In addition, the student could receive additional disciplinary action.

SECTION 6 – ATTENDANCE (Board approved May 11, 2009)

6.2 POLICY FOR TARDINESS

6.2 POLICY FOR TARDINESS TO HOMEROOM AND/OR CLASS

Ridgecroft School requires punctuality to school and to classes as it recognizes that being on time is an important habit. All students are expected to be in their classrooms with their books/materials and ready to begin class on schedule. It is not appropriate for students to ask to leave the room after the class begins to get books and materials.

This policy applies only to on-campus courses taught by Ridgecroft School faculty. Students taking courses through RCCC on its campus are subject to rules and regulations of that institution.

6.2.1 LOWER SCHOOL PROCEDURE:

Lower school teachers will begin instruction at the scheduled time in the morning. If a student is tardy, it delays the instruction for all students. Tardies, therefore, will be monitored and noted on the report card. Students with excessive tardies will be referred to the headmaster.

If a student is tardy, the parent will be notified of any work that was missed and the parent will be responsible to ensure that the work is made up by the student.

Excessive tardies are strongly discouraged because (1) it is disrespectful to the teachers, (2) it does not help teach students good habits, and (3) it can impact learning and academic progress over time.

6.2.2 MIDDLE SCHOOL AND UPPER SCHOOL PROCEDURE:

1. Students who come to school late must report to the office and sign in.
2. The homeroom teacher will maintain an accurate record of tardies and is responsible to confirm absences as listed on the daily bulletin.
3. The classroom teacher will maintain a record of tardies for each course or class. Whenever a student exceeds the fifteen day limit for absences, the classroom teacher is responsible for scheduling makeup

time sessions after school, at a rate of one hour for each absence, during which the student will work on class-related assignments.

4. Students with 12 or more tardies will not be eligible for an exam exemption at the end of the year.

Each student will respect the teachers and school staff and abide by the policies, rules, and regulations of Ridgcroft School.

In summary, students at Ridgcroft School are expected to:

- **Be courteous and have good manners at all times,**

SECTION 7 – STUDENT CONDUCT	(Board approved May 11, 2009; updated August 28, 2009)
7-2 POLICY FOR STUDENT DRESS CODE	

It is the policy of Ridgcroft School that administration, faculty, and students support the specified dress code that will conducive to the learning atmosphere in the school and development of character in our students. The school administration and faculty are the sole judges of the acceptability of students’ attire and/or grooming at school, including athletic wear and at any school function. Often it is a difficult judgment call because the same article of clothing on one child may be less acceptable than on another child for different reasons. Generally a good rule of thumb is not to wear anything you might question whether it will comply with the Ridgcroft School Dress Code.

Therefore, students are to adhere to the following dress code criteria:

- (1) Students are to come to school clean and neat at all times.
- (2) Students are to wear proper shoes at all times. No bare feet are allowed. Flip Flops or sandals may be worn to school, but are not allowed for recess or PE.
- (3) Students are not to wear clothing that is excessively soiled, torn, or ragged, including jeans (no ripped jeans allowed).
- (4) Students should not wear clothing that promotes alcohol beverages, tobacco, or the use of controlled substances; depicts violence; or is of sexual or disruptive nature.
- (5) Students should not wear hats, caps, hoods, sweatbands, bandannas, or sunglasses inside the campus buildings.
- (6) Students should wear pants or shorts at the waist. Sagging pants are not allowed.

- (8) No undergarments should be visible.
- (9) Both male and female students are not allowed to wear shorts with an inseam length shorter than 4 inches.
- (10) Students are not allowed to wear tight clothing such as knit or spandex bicycle/biker pants or overly tight pants, skirts, shorts, or dresses. Leggings may be worn only with a tunic- length top (bottom must be covered).

- (11) Hair should be kept neat and clean and not cover the eyes. Facial hair must also be kept neat and clean. The Director of Athletics or any other activity program coordinator may disallow facial hair or impose more restrictive rules.
- (12) For student athletes on game days, girls must wear dresses, skirts, dress pants, or dress shorts of an appropriate length. Dresses must not be shorter than 5 inches above the knee cap. Boys must wear khaki pants or dress shorts, a collared dress shirt, and a tie. Shirt tails must be tucked in and the tie must be tied. Alternately, students may wear uniform warmups or a Ridgcroft polo shirt as directed by their coach. Students not properly dressed by the end of the first period on game days will not be allowed to play in that day's athletic event.
- (13) EXCEPTIONS
- For PE (Physical Education class), students may wear shorts that are shorter than fingertip length.
 - Uniforms for cheerleading and other sports and dresses for prom and other formal occasions may be non-conforming to the dress code.

1. Licensed cars/trucks must remain in normal driving areas, not on playgrounds or athletic fields.
2. Any vehicle driven on this campus must be driven by a person who has a valid driver's license or learner's permit.

SECTION 7 – STUDENT CONDUCT

7-4 POLICY FOR STUDENT USE OF NETWORK/INTERNET

Students MUST have parental permission to utilize network and Internet at Ridgcroft School. The signed Computer/Internet Usage Agreement must be on file for the student to receive a password. Generally the form should be returned within two weeks of school beginning or within two week of the student enrolling in the school during the school year.

New technologies are affecting the ways that information may be accessed, communicated, and transferred. Those changes alter and enhance instruction and student learning. Ridgcroft School offers students and staff access to the Internet and computer technologies. This policy is designed to cover students' use of the Ridgcroft School's computer equipment, local-area network, and Internet access.

With access to technology comes responsibility. Not all materials accessible on the Internet are appropriate for the school setting. Teachers have the responsibility to instruct students on the proper use and to monitor their use in the classrooms, in the media center, and in the computer lab. Parents are responsible for understanding this policy and procedures and conveying to their children the standards that are required. Students are responsible for making appropriate choices and taking care of equipment. Purposeful destruction of equipment will be considered vandalism.

The smooth operation of the network relies upon the proper conduct of those who use it because it is impossible to control all materials. In general, this requires efficient, ethical and legal utilization of the network resources as well as adherence to school policies. Users of this network should be aware that officials have means to track and/or screen the use of the network. Students should not expect any privacy in these files.

It is the policy of Ridgcroft School to respect parents' additional restrictions that limit access to Internet resources. Parents who desire to make additional restrictions must do so in writing to the headmaster.

PROCEDURES FOR INTERNET/NETWORK USE

Access and use of the school equipment and Internet at Ridgcroft School is a privilege, not a right. The Internet is an important learning tool and will be integrated into instruction. Other uses of school access are to be considered inappropriate, and are not allowed. **Students are responsible to understand the necessity of appropriate behavior concerning technology at Ridgcroft School and the penalties associated with abuse and misuse.**

1. Students must immediately notify a teacher or staff member when they see or receive a message or materials that is inappropriate or makes them feel uncomfortable. Failure to notify a teacher immediately will constitute culpability on the student's part for any actions they have taken or take thereafter.
2. Students must have the Computer/Internet Usage Agreement Form (available on-line, in the Media Center and in the computer lab) signed by a parent and on file before being issued a password that enables accessing

the Internet. Students who do not have the permission form will not be allowed to access the Internet on the school campus.

3. Students will be issued a school password. They will not be allowed to change the password. If a student attempts to change the password, the system will lock him out and he will not have access to the computers for ten days. At that time another school generated password will be given to him. Additional attempts by students to change passwords will result in longer suspension of access to computers. (Updated 9/2/08)
4. Students will not use another person's Ridgcroft network password or give their password to another student for that person's use.
5. Students are responsible for appropriate behavior and use of the school computer network. Students should only use the Internet for educational research.
6. Students should use appropriate language across the Ridgcroft network or Internet.
7. Students should not disrupt or attempt to disrupt the functioning of the Ridgcroft network communications or equipment in any manner, nor should they gain or attempt to gain unauthorized access to the network or any electronic records maintained by any other organization (hacking). Vandalism, any malicious attempt to harm or destroy data or any computer equipment including the creation or spread of viruses at Ridgcroft School at any time will not be tolerated.
8. Students should not reveal last names, ages, telephone numbers, or other personal identifying or financial information including credit card numbers across the Internet or network.
9. Students should not access, publish, save, send or display illegal, defamatory, inaccurate, obscene, harmful, or profane images or text.
10. Students should not engage in spamming (i.e. sending junk mail), political lobbying, advertising, hate mail, or any commercial uses of the network.
11. Students should not waste limited network resources, including excessive use of the Ridgcroft network, downloading files, and loading programs or games to the local workstation or the Ridgcroft network without the prior approval of a teacher or administrator.
12. Students are not permitted to arrange/agree online to meet someone in person.
13. Students should not violate copyright laws by copying files, programs, or other materials protected by copyright, or by failing to give credit to Internet sources used in their research.
14. Students should not download music on school computers on school grounds.
15. Students should not play non-educational games on school computers on school grounds. Students who play non-educational games on school computers on school grounds will lose access to the Internet for a specified period of time.

PROCEDURE FOR INTERNET PROTECTION AT RIDGECROFT SCHOOL

The following procedures are in place to enable Ridgcroft School to utilize the Internet for academic learning.

1. FILTERING INTERNET CONTENT

Ridgcroft School uses the filtering system, which is designed to filter and block sites that generally do not enhance classroom learning. The categories filtered include: adult and sexual explicit, advertisements and pop-ups, alcohol, anarchy, chat, criminal activity and skills, cults, illegal drugs, entertainment, finance and investment, gambling, games, intolerance and hate groups, hacking, humor, intimate apparel and swimwear, obscene, personals and dating, photo searches, “phishing” and fraud, pornography, spyware, streaming media, tasteless and offensive, tobacco, R-rated, violence, weapons, web-based anonymous proxy, web email, and web-based news groups. Other sites that have been brought to the attention of the Technology Department as having little or no educational value have been blocked individually.

2. USER RESPONSIBILITY

The use of a filter does not diminish the user's personal responsibility for appropriate use of the network. No filtering software is infallible. Students should only access sites that are directly related to educational purposes. Students are required to report to the teacher any inappropriate sites that are inadvertently accessed. Students should be aware that staff at Ridgcroft School will periodically monitor use of the Internet by password. Students who misuses or abuses the privilege will receive penalties.

SECTION 7 – STUDENT CONDUCT

7-5 POLICY FOR COPYRIGHT

It is the intent of the Board that all employees and students of Ridgcroft comply with the United States Copyright Law, Title 17. The copying or use of copyrighted material not specifically permitted or exempted by the copyright law, fair use guidelines, license agreements, or explicit permission of the copyright owner is prohibited.

1. Copyright guidelines for Ridgcroft School includes information on obtaining copyright permissions and licensing and purchasing agreements, as well as cover, but not be limited to, the following topics:

- General principles
- Fair use
- Print materials
- Library / media center guidelines
- Music
- Off-Air Recordings of Broadcast Programs
- Rental or Home Videos
- Computer Software and CD-ROM Products

2. Administration and faculty at Ridgcroft School shall have the responsibility for:

- Implementing the policy;
- Keeping employees and students aware of the copyright law and informing them of current interpretations of the law;
- Answering questions concerning the law;
- Maintaining appropriate records of permissions, agreements, and licenses; and
- Placing appropriate warning notices on or near all print, video, and computer equipment capable of making or modifying copies.

3. Employees or students who willfully disregard the Copyright Policy or its approved procedures do so at their own risk and assume all liability for infringements of the policy and the law. In the case of a court action for damages, a finding of willful infringement would relieve the Board of Directors of paying any fees connected with the judgment incurred in conjunction with the lawsuit. The student or employee may be liable to the Board for any legal damages incurred by the Board.

PROCEDURE FOR COPYRIGHT

This procedure is designed to explain how the requirements of federal copyright law affect the employees and students of Ridgcroft School. Any staff members or students who are uncertain whether reproducing or using copyrighted material complies with the school's policy or is permissible under the law should contact the Media Specialist. The Media Specialist will also assist staff in the procedures for obtaining authorization to copy or use protected material when such authorization is required. Staff members who fail to follow this procedure may be held personally liable for copyright infringement.

GENERAL PRINCIPLES

While the school encourages its staff to enrich learning programs by making proper use of supplementary materials, it is the responsibility of staff to obey the requirements of the copyright law. The school will not be responsible for any violations of the copyright law by its staff or students. Penalties may be imposed for unauthorized copying or using of audio, visual or printed materials and computer software.

Only copyrighted materials are subject to copying and use restrictions. Un-copyrighted materials may be copied freely and without restriction.

Works published prior to March 1, 1989, generally require a copyright notice to be protected. Because a copyright notice is not required for copyright protection of works published on or after March 1, 1989, most works (except those authored by the United States Government) should be presumed to be copyright protected, unless further information from the copyright holder or express notice reveals that the copyright holder intends the work to be in the public domain.

Further information on how to determine the copyright status of a work can be found in the U.S. Library of Congress Copyright Office Circular 22 or at <http://www.loc.gov/copyright/circs/circ22.html>.

SECTION 7 – STUDENT CONDUCT

7-6 CELL PHONE POLICY AND PROCEDURES

Effective 8-14-17

Cell phone use is permitted on campus during break, lunch, and free periods. Cell phone use during class times is not allowed unless the teacher specifically allows for the use in his or her individual classroom. Cell phones are not allowed to be accessed while students are testing.

Students will be required to check phones with classroom teachers at the beginning of each class and retrieve them at the end of class. Students caught using their phone during class without permission will have the phone confiscated for the day and have to pay a \$20 fee to get it back. Subsequent infractions will result in the \$20 fee plus afterschool detention (ASD) which also has a \$20 fee attached.

We are asking parents to support the cell phone policy. Texting and driving is illegal because people cannot focus on the road; likewise, phone use in the classroom results in students not focusing on the lesson.

SECTION 7 – STUDENT CONDUCT

7-7 POLICY FOR RANDOM DRUG TESTING OF STUDENTS

Ridgcroft School Student Alcohol and Drug Policy

Section I- Statement of Purpose

Ridgcroft School is committed to providing the optimal educational experience and safe environment offered by caring and competent faculty and staff members for all students. In order to assist parents, the primary educator for their children, and to establish a safe, alcohol and drug-free environment, screening of all students grades seven (7) – twelve (12), for alcohol and unlawful controlled substances and other harmful substances, is hereby adopted for the 2008-2009 academic year and years to hence follow. The goal for Ridgcroft School is to educate students in an environment free from any influence of alcohol or controlled substances.

This Policy is to be both proactive and punitive. It is a Policy directed at student conduct, as such, its primary aim is that of deterring teens and young adults enrolled at Ridgecroft School from beginning or continuing alcohol or controlled substance use and abuse, and to steer them into a treatment and education program, whenever appropriate.

Attendance at Ridgecroft School is not a right, but a privilege. Certain responsibilities come with the privilege. Ridgecroft School holds students, parents, guardians, and any individuals having direct care of students to a high code of behavior in areas that affect the well being and safety of all students. Accordingly, all students, grades seven (7) – twelve (12), parents, and guardians are required to consent to participation in all aspects of the Policy as a condition of the student’s enrollment at Ridgecroft School.

Section II- Prohibition

The use, possession, sale, or purchase of any unlawful controlled substance or controlled substance is in violation of Federal Law and/or the laws of the State of North Carolina, and the Ridgecroft School Alcohol and Drug Policy including, but not limited to the following: Alcohol, Cocaine, Opiates, Phencyclidine (PCP), Marijuana, Steroids, Barbiturates, and Methamphetamines. Controlled Substances are prohibited at Ridgecroft School or at any Ridgecroft School event unless a valid, proper written medical authorization previously provided to the administration is in the student’s confidential cumulative file. A refusal to submit to, or attempt to falsify a test, required by the Policy will be deemed as a positive test and a controlled substance use violation, with the accompanying consequences as set forth in the Policy. Test sampling and references about unlawful controlled substances and controlled substances may be referred to as “Drug” throughout this Policy.

Section III- Components

The Student Alcohol and Drug Policy for Ridgecroft School is based on three basic components: Education, Intervention, and Responsibility.

Section IV- Education

Ridgecroft School shall offer, and each student shall receive education instruction regarding the physical and psychological effects of alcohol and controlled substance use and abuse. Such instruction shall consist of classes and/or other educational presentations throughout the academic year, at such times, and in such manners as the Headmaster shall determine. Additionally, such education shall be available to all Ridgecroft School faculty and staff members. Ridgecroft School faculty and staff shall receive training in the aspects of recognition and intervention when observing or confronted with a violation of the Policy.

Section V- Intervention

A. Alcohol

Any use, possession, or purchase of any alcohol substance by any Ridgecroft School student is a violation of this Policy. Furthermore, it is a violation of this Policy for any Ridgecroft School student to have any amount of alcohol, in his/her body while at Ridgecroft School or at any Ridgecroft School event, unless a valid, proper written medical authorization previously provided to the administration, is in the student’s confidential cumulative file.

- 1. Random Testing-** Screening for alcohol shall be conducted at Ridgecroft School utilizing a procedure whereby on random dates and events throughout the school year, selected by the Headmaster, a number of students as determined by the Headmaster, shall be selected randomly by the student’s school identification number from a pool consisting of the total Ridgecroft School student population in grades seven (7) – twelve (12), or by some other random method chosen by the Headmaster. The testing shall be conducted by collecting a breath sample for analysis utilizing an Intoxilyzer device in accordance with the manufacturer’s protocol for said device. Consequently, it is possible that a student may be tested more than once a year. Conversely, it is also possible that a student may not be tested at all.

- 2. Reasonable Basis Testing**- A Ridgcroft School student present on Ridgcroft School property or at a Ridgcroft School event reasonably appearing to be under the influence of alcohol shall be escorted to the administrative offices or other appropriate area where the student shall provide a breath sample for analysis by an Intoxilyzer device in accordance with the manufacturer's protocol, for said device. In making the determination that a student may be under the influence of alcohol, a Ridgcroft School faculty or staff member, or other individual in the presence of a Ridgcroft School student may consider the student's conduct, his/her physical appearance, eye abnormalities such as; redness, glassiness, or blood-shot appearance, odor of alcohol on their body or breath, slurred speech, altered physical coordination, or any other factor that would reasonably lead to making such a determination. The student shall consent to being escorted to the administrative offices and to providing breath samples as required by the Policy. The lower of two readings shall be considered the amount of blood-alcohol concentration for that individual. The Intoxilyzer printout reflecting the blood-alcohol concentration, the consent form(s) obtained for alcohol testing, and all paperwork associated with obtaining breath, hair, and/or urine samples shall become part of the Ridgcroft School student's confidential cumulative file, in the event that the Headmaster determines a breath, hair, and/or urine sample for alcohol testing is required.

B. Controlled Substances

Any use, possession, or purchase of an unlawful controlled substance or a controlled substance by any Ridgcroft School student is a violation of this Policy. Furthermore, it is a violation of this Policy for any student to have any amount of a controlled substance in his/her body while at Ridgcroft School or at any Ridgcroft School event, unless a valid, proper written medical authorization previously provided to the administration, is in the student's confidential cumulative file.

- 1. Random Testing**- Screening for the use of any unlawful controlled substance or controlled substance shall be conducted at Ridgcroft School utilizing a procedure whereby on random dates and events throughout the school year, a number of students, as determined by the Headmaster, shall be selected randomly from a pool consisting of the total student population, grades seven (7)– twelve (12), of Ridgcroft School, who will be randomly selected using their student identification number. The random method for selection is at the discretion of the Headmaster. Consequently, it is possible that a student may be tested more than once a year. Conversely, it is also possible that a student may not be tested at all.
- 2. Reasonable Basis Testing**- When it reasonably appears to a Ridgcroft faculty or staff member, or other individual, that is in the presence of a Ridgcroft School student, who is present on Ridgcroft School property or at a Ridgcroft School event, while appearing to have a controlled substance in his/her body, the student suspected to be under the influence of a controlled substance shall consent to being escorted to the administrative offices or other appropriate place, where the student shall provide a hair and/or urine sample for testing by the designated testing organization, in the event the Headmaster determines a sample is required. In making the determination that a student may be under the influence of a controlled substance, a Ridgcroft School faculty or staff member, or other individual in the presence of the student suspected to be under the influence of a controlled substance, may consider the student's conduct, his/her physical appearance, eye abnormalities such as; redness, glassiness, or blood-shot appearance, odor of body or breath, slurred speech, altered physical coordination, or any other factor that would reasonably lead to making such a determination. The consent form obtained for drug testing and all paperwork associated with obtaining hair and/or urine samples shall become part of the student's confidential cumulative file, in the event that the Headmaster determines a hair and/or urine sample for drug testing is required.

Ridgcroft School shall employ the services of an independent organization qualified to conduct such drug testing for the purpose of coordinating and analyzing suitable hair, and/or urine samples. Breath, hair, and/or urine samples may be obtained at Ridgcroft School; however the right to have off site sampling obtained is reserved and is at the discretion of the Headmaster.

Section VI. - Notification of Test Results

1. **Alcohol-** The Headmaster shall provide the student and his/her parent(s) or guardian(s), with written notification of a positive result immediately. Notification will not be provided if a negative result is obtained. The Intoxilyzer printout of all test results shall be maintained in the student's confidential cumulative file.
2. **Controlled Substances-** The Testing Organization shall notify the Headmaster of each test result. When results are received, the student and his/her parent(s) or guardian(s) will receive written notification of the test result within three (3) school days after obtaining the results. The notification shall include the name, address, and telephone number of the Testing Organization that handled the hair or urine sample.

Section VII. Responsibility

1. **First Violation-** Upon a first violation of the Policy, the student and his/her parents or guardians shall be required to meet with the Headmaster to determine an appropriate course of action. The student will be required to receive an immediate assessment by a substance abuse professional approved by the Headmaster. The student and his/her parents or guardians must agree to follow the plan of treatment established by the substance abuse professional and must agree to provide the school with the initial assessment and information regarding the student's plan of treatment. The student shall be subject to a ten (10) day in-school suspension, at the expense of the parents or guardians, and will be prohibited from participating in extra-curricular activities for the remainder of the school year.

The substance abuse professional shall be required to advise the school if the student fails to follow the plan of treatment, in which case the student will be expelled from Ridgcroft School. Upon completion of necessary treatment, the student shall submit to follow-up testing which shall consist of mandatory, monthly, random testing for a period of three (3) months. If a student tests positive during this period, he/she will be expelled from Ridgcroft School.

All cost associated with assessment, treatment, and follow-up testing shall be borne by the student and/or the student's parents or guardians.

2. **Second Violation-** Upon a second violation of the Policy, the student will be expelled from Ridgcroft School

Section VIII- Confidentially

Ridgcroft will make reasonable attempts to keep information regarding alcohol and drug tests, and any resulting disciplinary actions confidential.

Section IX- Appeal of Alcohol or Controlled Substance Test Results

If the student, or his/her parents or guardians, is of the opinion the alcohol or drug test results are erroneous, the student's parents or guardians must notify the Headmaster in writing. Such notification shall also set forth whether the student's parents or guardians intend to request that a second test sample be obtained. When the student's parents or guardians request a second test sample to be obtained, such request shall be made by the parents or guardians directly to the Testing Organization. The second test must be taken within three (3) days of the student's receipt of the written notification of the initial positive test sample result. The cost for the second test sample shall be borne by the student and/or his/her parents or guardians. If the second test sample results vary from the first test sample results, the Headmaster and the student from whom the sample was taken, and his/her parents or guardians, will discuss what further action shall be taken. The date the student and/or his/her parents or guardians receive written notice shall be counted for purposes of calculating the three (3)-day period; however, Saturdays, Sundays, and Holidays shall not be counted. Test samples will be obtained on the next business day. For example; if the notice is received on a Thursday or Friday and the repeat test sample is not obtained on Friday, Monday will be considered the third (3rd) and final day to have the repeat test sample obtained.

Section X- Retention of Records

Documentation pertaining to each student's random screening for drug usage will not be made part of the student's permanent record. All documentation generated in connection with the Policy shall be kept in a separate confidential file.

Section XI- Sell, Distribution, or Possession

Any student caught selling, distributing, or in possession of alcohol, unlawful controlled substances, or controlled substances on Ridgcroft property or at any Ridgcroft event will be immediately expelled from Ridgcroft School.

SECTION 7 – STUDENT CONDUCT

7-8 POLICY FOR USE OF IPODS AND HANDHELD GAMING DEVICES

Students are prohibited from using Ipods (and other music devices) and/or handheld gaming devices on campus during school hours. Similar to the policy for cell phones, teachers will take devices to the office and a list will be maintained. Repeat offenses will result in ISS/OSS.

SECTION 7 – STUDENT CONDUCT

7-9 POLICY FOR FIRE ARMS ON CAMPUS

Students at Ridgcroft School that are members of our school sponsored Hunter Safety Team will be allowed to bring firearms (rifles and shotguns only) on campus under the following conditions:

1. Firearms can be brought onto campus only on days when practice or a competition is scheduled.
2. Firearms must be unloaded and stored in a locked hard case.
3. Firearms must be brought to the administrative offices immediately upon arrival at school.
4. Entrance to the building must be through the front door to the office or the rear door of the commons, not down the upper school hallway.
5. Firearms will be kept under lock and key in the administrative office until the end of the day, at which time, the firearms must exit through the same doors as mentioned above.
6. Under no circumstance, shall firearms be left in student vehicles in the parking lot. Also, hard cases must remain locked until students have left the campus.
7. Compound bows and non-broad head arrows may be brought in. They must also be in hard cases with the same restrictions as firearms.
8. If parents are picking up younger team members they may come on campus with bows and firearms that are secure in their vehicles.

Failure to follow these guidelines may result in a loss of this privilege, suspension from the team for a specific period of time, or dismissal from the team depending on the circumstances.

SECTION 7 – STUDENT CONDUCT
7-10 POLICY FOR SEARCH AND SEIZURE

I. Search and Seizure

To maintain order and discipline in the schools and to protect the safety and welfare of students and school personnel, authorized school personnel may search a student, student lockers, (including desks and other storage areas provided for student use on school premises) or student automobiles under the circumstances outlined below and may seize any illegal, unauthorized, or contraband materials discovered in the search to be turned over to the proper legal authorities.

Searches are either voluntary following consent or involuntary as the result of a search warrant or pursuant to the order of a law enforcement official or otherwise allowed by law. A search by definition is an action that intrudes on and invades the student's reasonable expectation of privacy. A demand that a student supply some concealed item is a search. On the other hand if an item is in plain view and school personnel asks the student to hand it over, this is not a search. Since the student has no reasonable expectation of privacy in this situation, having exposed the item to public view, the school personnel may legitimately demand that it be turned over.

As used in this policy, the term "unauthorized" means any item dangerous to the health or safety of students or school personnel, or disruptive of any lawful function, mission or process of the school, or any described as unauthorized in school rules available beforehand to the student.

A search by school personnel may be conducted on the basis of "reasonable suspicion." A search by a law enforcement official should be conducted only on the basis of "probable cause" as required by law. As used in this policy, the term "reasonable suspicion" means circumstances which would cause a reasonable person to believe that the search of a particular person, place, or thing will lead to the discovery of:

1. Evidence of a violation of the student conduct standards contained in the student handbook or otherwise as provided by law, or
2. Evidence of a violation of local, state or federal law, or
3. Anything which because of its presence presents an immediate danger of physical harm or illness to person or property.

The following factors shall be recognized in determining whether a school search is based on reasonable suspicion:

1. The probative value and reliability of the information used as the justification for the search
2. The degree to which there is a compelling need to make a search without delay and further investigation
3. The prevalence and seriousness of the problem to which the search is directed
4. The particular school personnel's experience with both the student and the type of problem to which the search is directed
5. A consideration of the child's age, history, and record in school.

A student's failure to permit searches and seizures as provided in this policy may be considered grounds for disciplinary action.

II. Specific Search and Seizure Policies

A. Personal Searches

Authorized school personnel may search the person of a student during school activities if school personnel have reasonable suspicion to believe that the student is in possession of illegal or unauthorized materials. Searches of the person of a student shall be limited to:

1. Searches of the exterior clothing of the student; i.e., shoes and pockets
2. Any object in the possession of the student such as a purse or briefcase, and/or;
3. A “pat down” of the exterior of the student’s clothing.

If a pat down search of a student’s person is conducted, it should be conducted in private by school personnel of the same sex with an adult witness of the same sex present. The parent or guardian of any student searched shall be notified of the search as soon as reasonably possible.

A more intrusive search may be conducted if school personnel have reasonable suspicion to believe that the student has on his or her person an item imminently dangerous to the student or to others. Such a search may be conducted only in private by school personnel of the same sex, with an adult witness of the same sex present, and only upon the prior approval of the headmaster, unless the health or safety of students will be endangered by the delay which might be caused by following these procedures.

B. Locker Searches

Student lockers, desks and other storage areas provided for student use on school premises are school property and remain at all times under the control of the school; however, students are expected to assume full responsibility for the security of their lockers, desks, or other storage areas. Students are also responsible for whatever is contained in lockers, desks, and other storage areas issued to them by the school. Periodic general inspection of any lockers may be conducted by school personnel for any reason at any time without notice, without student consent, and without a search warrant.

C. Vehicle Searches

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains authority to conduct routine patrols of student parking lots and inspections of the exteriors of student automobiles on school property, including a visual inspection of the interior of any automobile through the window of the automobile. The interiors of student vehicles may be searched whenever school personnel has reasonable suspicion to believe that illegal or unauthorized materials are contained inside.

If school personnel have reasonable suspicion to believe that illegal or unauthorized materials are present in the automobile, the school personnel may institute a search. Ordinarily the student should be required to be present and asked to consent to the search. If, after being informed of the basis for the school personnel’s reason to search, the student does not consent and the circumstances permit, the student’s parent or guardian should be called and informed of the circumstances. If the parent or guardian will not consent to the search, the school personnel may proceed with the search, contact security, or, if necessary, call law enforcement officials. Ordinarily, and if circumstances permit, the search should be conducted out of the presence of other students. Refusal to allow a vehicular search may result in a loss of driving privilege.

D. Search and Seizure

If a properly conducted search yields illegal or contraband materials, such findings shall be turned over to proper legal authorities for ultimate disposition.

E. Police Questioning

Absent extenuating circumstances, police will avoid questioning students at a school for non-school-related issues. Extenuating circumstances include, but not limited to, officers entering school premises in “hot pursuit” of a suspect, for child abuse investigation, or crime being committed on school property.

Upon request, the headmaster and police shall discuss whether it is necessary to conduct the student questioning at school. However, if the police direct that the questioning will take place or produce a subpoena, school staff will comply.

If it is determined that the questioning will take place at school, the headmaster shall make a reasonable attempt to notify the parents (except in cases of suspected child abuse or neglect by the parent) and give them an opportunity to be present at the time of the questioning.

The questioning will take place in a private office, conference room, etc., away from the student body, school staff, and/or public. It is the responsibility of the law enforcement officer(s) conducting the questioning to meet any legal requirements from a law enforcement perspective relating to advising a student of constitutional or statutory rights.

If the parent/guardian is not present during the questioning, the administrator will remain in the room with the police officer and the student to witness the questioning unless directed otherwise by the police. If the parent/guardian is present and requests to witness the interview, the administrator shall so advise the law enforcement officer. The law enforcement officer(s) shall then decide whether and how to proceed.

F. Student Notification of Search and Seizure Policies

Students shall be provided with notice of this policy concerning search and seizure by having the policy placed in the student handbook or distributed by supplemental publication.

SECTION 7 – STUDENT CONDUCT 7-11 POLICY FOR BULLYING AND HARRASSING BEHAVIOR	Updated 9-20-10
---	------------------------

POLICY:

RIDGECROFT SCHOOL endorses having a positive learning environment for all students. To achieve this goal, Ridgcroft School will comply with the House Bill 776 passed by the General Assembly in the summer of 2009.

House Bill 776, defines BULLYING AND HARRASSING BEHAVIOR to be any pattern of gestures, verbal communications, physical acts that take place on school property, at any school-sponsored function, or on a school bus, and that:

- (1) places a student or school employee in actual and reasonable fear of harm to his or her person or damage to his or her property; or
- (2) creates a hostile environment, by substantially interfering with or impairing a student’s educational performance, opportunities, or benefits. For purposes of this section, “hostile environment” means that the victim subjectively views the conduct as bullying or harassing behavior and the conduct is objectively severe or pervasive enough that a reasonable person would agree that it is bullying or harassing behavior.

No person shall engage in any act of reprisal or retaliation against a person who reports bullying or harassing behavior.

Ridgcroft School also specifies that “bullying” includes:

- (1) the act of intimidating a weaker person to make them do something.
- (2) the act of intentionally causing harm to others, through verbal harassment, physical assault, or other more subtle methods of coercion.
- (3) behaviors and actions that are verbal, physical and/or antisocial, such as exclusion, gossip, and non-verbal body language.

PROCEDURE:

All teachers and staff, including substitutes, have the responsibility to educate all students on bullying and harassing behavior and to be both vigilant and responsive to any bullying acts. The staff member should intercede in any situation, initially given information and warning for repeated situations. The offender should apologize to the offended student.

Repeated or severe situations should be documented on a Discipline Referral Form. Repercussions could include involvement of parents, writing a letter of apology, ISS/OSS, or dismissal from Ridgcroft School.

CYBERBULLYING (Updated 9-21-10)

The Board of Directors is committed to providing a positive and productive learning and working environment at Ridgcroft School. Any form of harassment using electronic communication devices, commonly known as cyberbullying, by staff, students, parents, or other third parties that targets students, staff, board members, or other school stakeholders is prohibited and will not be tolerated if it disrupts or prevents a safe and positive educational or working environment of the school or impacts the ability of students to be successful while in school. Cyberbullying encompasses conveying a message in any form (text, image, audio, or video) that defames, intimidates, harasses, abuses, stalks, annoys, threatens, terrifies, embarrasses, or is otherwise intended to harm, insult, or humiliate another in a deliberate, repeated, or hostile and unwanted manner under a person's true or false identity.

The school will make all efforts to protect the students' First Amendment Rights of Free Speech, but any cyberbullying that is done during school hours or using school equipment will have consequences. Cyberbullying that is done outside of school hours and using personal equipment but targets students or school staff that interferes with the ability of Ridgcroft School to provide a safe and secure learning environment for its students and staff, falls within the reach of the school's disciplinary arm. Court cases have upheld that private schools have more latitude in disciplining students who are involved in cyberbullying than public schools.

The school will take any report of cyberbullying seriously and will investigate credible reports promptly. Students, parents, faculty, and board members are encouraged to report an incident immediately to an administrator. An accusation is stronger if there is documentation so it is strongly recommended that a copy of an email, text message, picture, or other electronic transmission is submitted with the report.

Administration will take appropriate action which could include, revoking the privilege of the student's use of school technology, fines, loss of school privileges, suspensions, and/or expulsion.

Parents of the person doing the bullying will be notified. Some case law exists that can allow someone who is intentionally injured by a minor to hold the parents of that minor financially responsible. Parents can also be found negligent in failing to provide reasonable supervision of their child. If the school administrator notifies parents that their child is cyberbullying another and the cyberbullying continues, this can provide an enhanced ability to hold the parents financially liable. Informing the parents of the cyberbully about this potential is likely the strongest "motivation" school officials can use to ensure that the cyberbullying stops.

A person who is being cyberbullied should also contact the sender's service provider to report the harassment. Most providers have user agreements expressly forbidding abuse, and can cancel the sender's service. If possible, provide documentation.

If the cyberbullying is extreme or prolonged, people may also contact local law enforcement, but it is recommended that this be done only after they contact the service provider, the school, and the parents of the perpetrator.

If all other possible remedies do not bring relief, parents and/or staff may also pursue protection by laws to prove violators guilty of Class 2 misdemeanor under NCES Section 14-458.1. Civil laws provide the ability for cyberbully victims to sue the bully and the bully's parents to recover financial damages for injuries or require actions such as removal of material and discontinuation of cyberbullying. Some cyberbullying activities meet the standards for what is called an intentional "tort" (wrongdoing).

Search of Internet and Personal Digital Device Records

As an extension of Ridgcroft School Policy 7-9 for Search and Seizure, the locker search standard will apply to student Internet use. Students have a limited expectation of privacy on the school's Internet system. Routine maintenance and monitoring, technically and by staff, should be expected. An individual search of computer

and Internet use records can be conducted if there is reasonable suspicion that the student has violated district policy, including policies against bullying. The administrator or his designee has the authority to authorize individual search and record-keeping procedures.

Within reason and with regard to wiretapping laws, the school may search a student's personal digital device including cell phone, PDA, or personal laptop that is used at school.

SECTION 8 – MISCELLANEOUS
8-1 POLICY FOR SOLICITORS

No one is allowed on the school grounds or in the school building to solicit or to request signatures for a petition unless authorized by the headmaster. No student may sell any items on campus.

SECTION 8 – MISCELLANEOUS
8-2 POLICY FOR CAMPUS VISITORS

All visitors to the school will report to the office on arrival. Visitors that go to classrooms should be approved by administration, should register in the office, and should have a visitor's pass.

School personnel will assist a parent if he is picking up a student or with other situations.

SECTION 8 – MISCELLANEOUS
8-3 POLICY FOR MEDICAL CARE AND INTERVENTION OF STUDENTS

Ridgecroft School will provide reasonable care of students on its campus accordingly to following procedures:

1. Student Accident Insurance: Ridgecroft School does not provide student accident insurance. Payment of medical bills for students injured on school property or when engaged in school-sponsored activities shall be the responsibility of the parent and/or the student's insurance company.

2. Accident/Illness at School: If an accident or illness occurs at school, school officials will attempt to contact parent/guardian. In the event that a parent/guardian is not available, the headmaster or designee will determine the course of action.

3. Administration of Medicine:

In order to assure the safe administration of medication to students during the school day, the following procedure has been developed. If your child must have medication of any type given during school hours, including over-the-counter drugs, you have the following choices:

- (1) You may come to school and give the medication to your child at the appropriate time(s).
- (2) You may discuss with your doctor an alternative schedule for administered medication (i.e., outside of school hours).
- (3) You may request school personnel to administer medication; however, you must comply with the following:
 - (a) The school must have documentation on file. A medication form that can be obtained from the office must be completed and signed by the doctor. It should list the medication needed including any over-the-counter drugs, the dosage, and number of times per day the medication is to be administered. The form must be signed by the parent or guardian.
 - (b) Prescription medicines must be brought to school in a pharmacy-labeled bottle which contains instructions on how and when the medication is to be given.
 - (c) Over-the-counter drugs must be received in the original container and will be administered according to the doctor's written instructions.

4. Students with Chronic Medical Conditions:

Parents of children with a chronic medical condition need to discuss the situation with the headmaster and have documentation on file including medicine, necessary interventions, doctor names and phone numbers so that the school will be able to handle emergencies properly. Parents have the responsibility to review expiration dates on medication and/or medical equipment at least on a yearly basis. If an episode occurs at

the school, school officials will complete a MEDICAL INCIDENT REPORT and place it on file in the office.

SECTION 8 – MISCELLANEOUS
8-4 POLICY FOR CLASS INVITATIONS

Students who distribute invitations at school for a party that will be given in the home should ensure that all students in the class are invited. Otherwise, arrangements need to be made to mail invitations or distribute them at some other location.

SECTION 8 – MISCELLANEOUS
8-5 POLICY FOR PERSONAL PROPERTY

Ridgecroft cannot be responsible for damage or loss of personal property on school property and/or at school-sponsored activities and trips. Parents should label clothing and equipment. Clothing or other items left at the school unclaimed will be donated to charity organizations at the end of each semester.

SECTION 8 – MISCELLANEOUS
8-6 POLICY FOR TRANSPORTATION TO GAMES

The Policy of Ridgecroft School requires all athletes, cheerleaders, managers, and/or trainers to ride to and from all games on transportation provided by the school. The only exceptions are those students who ride with their parents or who have had permission to ride with other parents granted by the Head of School or the Director of Athletics.

SECTION 8 – MISCELLANEOUS
8-7 POLICY FOR PERMISSION TO EXHIBIT PICTURES ON WEBSITE

- **Form can be accessed on website**

Parents/guardians have the right to not allow photographs, audio recordings, academic work including art projects, and/or video recordings that involve their child's picture or child's work to be used for educational, instructional, or promotional purposes as determined by the school. This includes posting on the Ridgecroft School website. They will need to submit their request in writing.

SECTION 8 – MISCELLANEOUS
8-8 POLICY FOR TEXTBOOKS

Updated 2009-2010

Textbooks are issued to students in grades K-5 by their classroom teacher and to students in grades 6-12 by their course teacher. The cost of textbook rental is included in the fees that parents pay during registration.

TEACHER RESPONSIBILITY

The teacher is responsible to indicate the condition of the book as New (N), Good (G), Fair (F), Poor (P), Bad (B) when it is distributed to the student and to maintain a record of the condition. It is strongly recommended that teachers write the names of the student in the book and/or number it for identification.

NORMAL WEAR AND TEAR

Students are responsible to take care of the books. Students will not be charged for normal wear and tear during the school year. Students will be charged for excessive wear and tear including damaged covers and marking in books in the amount of \$1.00 to \$5.00.

LOSS OF BOOK/UNUSABLE BOOK

The average textbook cost for the last two years has been \$60.00. Students who lose or extensively damage their assigned book will be assessed according to the replacement cost of the book. For example, if a three-year old social studies book cost \$50.11 new, the student will have to pay \$50.11.

If a student loses his book or renders the book unusable during the school year, the teacher should notify the student and the business office of the amount of replacement cost, then issue the student a second book.

PAYMENT OF FEES

At the end of the year, teachers should submit to the office a complete list of students and amounts that are owed. Students will not receive report cards until all fees are paid.

SECTION 8 – MISCELLANEOUS 8-9 POLICY FOR MEDIA CENTER MATERIALS INCLUDING AUDIO AND VISUAL Revised 8/1/10

In view of the stated mission of Ridgcroft School, the primary objective of the school's media program is to implement, enrich and support the instructional program of the school. The use of resource books, literary works, videos/DVDs, filmstrips, and other audio/visual aids are acceptable methods of education used to supplement the classroom instructional program. The Ridgcroft School Media Center used the Library Bill of Rights as the guiding principle.

LIBRARY BILL OF RIGHTS

The American Library Association affirms that all libraries are forums for information and ideas, and that the following basic policies should guide their services:

1. Books and other library resources should be provided for the interest, information, and enlightenment of all people of the community the library serves. Material should not be excluded because of the origin, background or views of those contributing to their creation.
2. Libraries should provide materials and information presenting all points of view on current and historical issues. Materials should not be proscribed or removed because of partisan or doctrinal disapproval.
3. Libraries should challenge censorship in the fulfillment of their responsibility to provide information and enlightenment.
4. Libraries should cooperate with all persons and groups concerned with resisting abridgment of free expression and free access to ideas.
5. A person's right to use a library should not be denied or abridged because of origin, age, background or views.
6. Libraries which make exhibit spaces and meeting rooms available to the public they serve should make such facilities available on an equitable basis regardless of the beliefs or affiliations of individuals or groups requesting their use.

Adopted June 18, 1948 Amended February 2, 1961, June 27, 1967, and January 23, 1980 by the ALA Council

A. Responsibility of Selection

1. If materials (books, film, DVD, VHS, audio, etc) are questionable, it is the responsibility of the teacher to obtain a favorable approval from the Media Coordinator, the Director of Curriculum, and/or the headmaster. If needed and appropriate, the Media Coordinator may convene a Media Advisory Committee, to review and approve the materials.
2. A parent or a teacher who would like to purchase or provide appropriate library resources or audio/visual materials for Ridgcroft School must get approval from the Media Coordinator, the Director of Curriculum, and/or the headmaster. Such materials will become a part of the media center collection.

B. Criteria and Guidelines for Selecting Materials

1. Educational significance and relevance to the subject matter and the curriculum objectives.
2. Favorable reviews that of the author and/or work
3. Validity and appropriateness of material to the grade, course, and age of the students.
4. Generally, only visual materials rated G or those that might be rated G may be selected. Materials

rated PG or those that might be rated PG must be carefully previewed as regards objectionable words and/or subject content and specifically noted prior to consideration. If selected, student and parents must be so informed in advance and students may be excused from participation in that particular educational activity.

5. Works that are listed on acknowledged educational lists such as the Battle of the Books list
6. School officials have the responsibility for making comprehensive decisions about inclusion of materials for the school community at large. No parent has the right to determine reading, viewing, or listening matter for Ridgecroft School students other than his/her own children.

C. Use of Audio/Visual Materials in the Classroom

Selected audio/visual materials can enhance curriculum when aligned with the course objectives and used judiciously. In order to ensure appropriate use of such resources, a teacher must request and receive permission from the Headmaster, the Director of Curriculum, or the appropriate school director at least 24 hours prior to use. The request should be made on a REQUEST FOR AUDIO/VISUAL RESOURCE form. The teacher, in requesting permission, must specify the objective that the audio/visual aid will enhance and indicate how the audio/visual information will be integrated into the instruction.

Under no circumstances should “fun” materials be used to supplant the educational process. Teachers need to protect instructional time. This policy and procedure also applies to lessons given to a substitute teacher. Staff members not complying with this policy will face reprimand. Repeated noncompliance could result in dismissal.

Form: REQUEST FOR AUDIO/VISUAL RESOURCE

This form, with approval signatures, must be presented to the Media Center to check out a TV.

Name of Teacher:	Date:
Grade/Class:	Date of presentation:
Name of Audio/Visual resource:	
Specify objective of grade/subject/course and describe how the this audio-visual resource will be integrated into the instruction:	
Estimated amount of time devoted to use of this resource:	
Teacher’s Signature:	
Approval Signature: Headmaster, Director of Curriculum, School Director	

E. Reconsideration of Audio/Visual Materials

Occasionally, concerns about materials may be voiced despite the care taken in the selection process. Any parent or employee of the school may raise an objection to audio/visual resources despite the fact that the individuals selecting such resources are duly qualified to make the selection. In those cases, a written request for reconsideration which states the concern should be sent to the headmaster who will in turn convene the Media Advisory Committee. The form, REQUEST FOR RECONSIDERATION OF AUDIO/VISUAL MATERIAL, should be used. The committee will meet within five school days of receipt of the concern and issue a decision. Questions on this procedure should be directed to Mrs. Jerrie Taylor, Media Specialist.

If the complainant wishes to pursue the matter, he may appeal to the board of directors for final judgment.

**SECTION 8 – MISCELLANEOUS
8-10 POLICY FOR FIELD TRIPS**

POLICY

Ridgcroft School fosters field trips as a way of extending and enriching classroom instruction. Field trips will be linked to the grade-level curriculum and must be age-appropriate. The teacher will maximize the learning opportunity of the field trip by facilitating pre-lessons/discussions in the classroom, having students maintain a learning log or some other type of worksheet, and doing follow-up activities upon the return to school.

PROCEDURE

1. In an effort to have a scope and sequence of educational experience over the course of grades K through 12, the chart in this policy outlines recommended field trips.
2. The teacher will begin planning of the field trip at the beginning of the school year, as much as possible, and therefore, notify parents of the cost and the need for chaperones or transportation.
3. It is recommended that in grades K-2, there be at least one adult per eight students and in grades 3-8, there be at least one adult per ten students.
4. At the beginning of the school year, all students should complete the STUDENT HEALTH & MEDICATION ADMINISTRATION FORM with pertinent parent contact and medical information. This form will be kept on file in the office. The teacher must take with him a copy of this form for each student when leaving on the field trip. No student will be allowed to go on a field trip if this form is not completed.
5. Parents of student having chronic medical condition must ensure that the teacher is informed and has any needed medicine and/or equipment that will be necessary to treat the child. In cases of severe situations, it is recommended that the parent accompany the student on the trip.
6. Students who have had significant disciplinary referrals can be denied permission to go on field trips. The teacher may request that the parent be a chaperon if the student is allowed to go.
7. Even as field trips are considered an enriching experience, the teacher must consider the instructional time and therefore, consider the time out of class and the frequency of the field trips.
8. Field trips involving overnight stays must have special permission from the headmaster.
9. In the case of any emergency, the student will be immediately transported to medical care and parents will be notified.

<p>SECTION 9 – SCHOOL SAFETY 9-1 POLICY FOR FIRE AND TORNADO DRILLS</p>
--

Ridgcroft School makes all reasonable efforts to prepare students for events of natural disasters. State law requires that there be one fire drill held each month. Tornado drills will be conducted periodically.

EMERGENCY PLANS FOR FIRE

If fire is detected within any building on campus, proceed according to the following plan. If the fire is small and can be contained, the teacher or administration can use fire extinguishers to extinguish it after ensuring that students are being exited from the building.

- (1) A student who discovers a fire should notify a teacher first, and then go to notify the headmaster immediately.
- (2) The headmaster or designee will sound the fire alarm immediately. The fire alarm consists of three short rings of the school bell. If appropriate, the headmaster is responsible for sending a runner to notify people in the gym.
- (3) The headmaster or designee will notify the Hertford County Emergency Control (911).
- (4) All students and staff will evacuate the buildings in accordance with the fire evacuation routes posted in each room. The evacuation should take no more than two minutes.
- (5) Teachers must take their class roll books with them. If possible, teachers will see that all windows and doors in their classrooms are closed and lights are turned off when leaving the room.
- (6) Each class will exit in a single file line, walking close to the wall in an orderly, rapid fashion without talking.
- (7) The custodian will turn off all utilities (electricity and fuel) except emergency lights.
- (8) The business manager and secretaries will close all storage rooms and secure all records.
- (9) The headmaster and the upper school director will make sure all occupants evacuate at least 200-300 feet from the building and are out of the way of the fire department.
- (10) When students are outside of the building, teachers will ensure that all students are accounted for and if someone is missing, notify the headmaster or school director. The headmaster will be responsible for organizing a search and notifying the on-scene fire personnel immediately.
- (11) If the person is not located, the headmaster or his/her secretary will notify the Ahoskie Police Department and Sheriff's Department.
- (12) A qualified person on the faculty will render first aid if appropriate.
- (13) Students and staff will not return to the building until fire department officials declare the area safe and the headmaster signals that it is safe to return with a long ring of the school bell.
- (14) Everyone will return to the building in an orderly manner.

EMERGENCY PLANS FOR TORNADOES

TORNADO WATCH is in effect when conditions are favorable for tornados to develop.
TORNADO WARNING is in effect when a tornado has been sighted in the area.

In the event a tornado threatens Ridgcroft School, proceed according to the following plan:

- (1) The headmaster will turn on a battery-operated radio and listen for weather advisory information on WQDK-99.3 FM (Ahoskie) or WBCG-98.3 FM (Murfreesboro).
- (2) The headmaster or designee will notify all teachers of the conditions. Students will not be notified until there is a tornado WARNING.
- (3) During the TORNADO WATCH, teachers should keep students in the classroom and continue regular classroom activities.
- (4) If appropriate, the headmaster will notify all bus drivers.
- (5) The headmaster will determine if school will be dismissed at the normal hour and bus drivers will be able to follow their regular routes.
- (6) If tornadoes are reported in the surrounding areas, the headmaster will designate a person to assume a look-out position. If a tornado is sighted, this person will notify the headmaster immediately. If there is time, the custodian will proceed to turn off all utilities (electricity, water, fuel). If a tornado is sighted, the headmaster or designee will sound the tornado signal immediately which consists of a series of ten short rings of the bell.
- (7) The headmaster is responsible for sending an adult to notify classes outside the building.
- (8) Teachers will direct students to leave the class in a quiet, orderly manner, taking only coats and handbags, and proceed to the designated areas. The coats can be used to cover the face if the tornado hits the school building.
- (9) The teacher will close all windows, shut the door, and get their class roll book before following the students.

SECTION 9 – SCHOOL SAFETY
9-2 SAFETY IN THE SCIENCE LAB

Because of dangers when working in a science lab, the following procedures should be followed:

- (1) Teachers will need to document that students have been informed of proper handling of equipment and chemicals. This can be best done in the classroom plan book or included on the lab form.
- (2) Teachers will maintain a Science Lab Contract Form that specifies procedures and is signed by both student and a parent. This form will be completed during the first six-week grading period. Students who do not have a form on file will not be permitted to participate in some labs which will impact their grade. Teachers will review safety procedures periodically during the year when conducting labs and experiments.
- (3) Teachers will post a MSDS form on the science lab door for fire personnel when using chemicals in experiments that are flammable or harmful. Students will be informed of procedures for safe handling.

PENALTY: Refer to student discipline plan.

SECTION 9 – SCHOOL SAFETY
9-3 LOCK-DOWN PLAN

In event of a dangerous situation on campus, a procedure for a school-side lock-down will be initiated. Students will be secured in classrooms and law enforcement officials will be notified. Teachers will receive training and students will have at least one drill during the course of the school year.

SECTION 9 – SCHOOL SAFETY
9-4 POLICY FOR INCLEMENT WEATHER

Any school delays, early releases, and closures will be announced via one-call, facebook, and e-mail. In cases of early closing, students will be allowed to also utilize the school telephone lines and cell phones to notify parents in this situation.

SECTION 9 – SCHOOL SAFETY
9-5 EMPLOYEE ALCOHOL AND DRUG USE

Ridgcroft School is committed to providing the optimal educational experience provided by caring and competent faculty and staff members who are free from any influence of alcohol or drugs.

The use, possession, sale, or purchase of any unlawful controlled substance or controlled substance is in violation of Federal Law and/or the laws of the State of North Carolina, and the Ridgecroft School Alcohol and Drug Policy including, but not limited to the following: Alcohol, Cocaine, Opiates, Phencyclidine (PCP), Marijuana, Steroids, Barbiturates, and Methamphetamines. Controlled Substances are prohibited at Ridgecroft School or at any Ridgecroft School event unless a valid, proper written medical authorization previously provided to the administration is in the faculty or staff member's confidential employee file. A refusal to submit to, or attempt to falsify a test, required by the Policy will be deemed as a positive test and a controlled substance use violation, with the accompanying consequences as set forth in the Policy.

The Policy for Ridgecroft School faculty and staff is based on two basic components: Intervention and Responsibility.

Intervention

Alcohol

Any use, possession, or purchase of alcohol by any Ridgecroft School faculty or staff member during the time when they are performing their duties in the direct supervision or teaching of students is a violation of this Policy. Furthermore, it is a violation of this Policy for any Ridgecroft School faculty or staff member to have any amount of alcohol, in his/her body while performing said duties, while at Ridgecroft School or at any Ridgecroft School event, unless a valid, proper written medical authorization previously provided to the administration, is in the faculty or staff member's confidential employee file

- (1) Random Testing – Screening for alcohol shall be conducted at Ridgecroft School utilizing a procedure whereby on random dates and events through the school year, selected by the Headmaster, a number of staff as determined by the Headmaster, shall be selected randomly by the faculty or staff member's identification number from a pool consisting of the total Ridgecroft School faculty and staff population or by some other random method chosen by the Headmaster. The testing shall be conducted by collecting a breath sample for analysis utilizing an Intoxilyzer device in accordance with the manufacturer's protocol for said device. Consequently, it is possible that a faculty or staff member may be tested more than once a year. Conversely, it is also possible that a staff member may not be tested at all.
- (2) Reasonable Basis Testing – A Ridgecroft School faculty or staff member present on Ridgecroft School property or at a Ridgecroft School event reasonably appearing to be under the influence of alcohol shall be escorted to the administrative offices or other appropriate area where the faculty or staff member shall provide a breath sample for analysis by an Intoxilyzer device in accordance with the manufacturer's protocol, for said device. In making the determination that a faculty or staff member may be under the influence of alcohol, a Ridgecroft School faculty or staff member may consider the faculty or staff member's conduct, his/her physical appearance, eye abnormalities such as: redness, glassiness, or blood-shot appearance, odor of alcohol on their body or breath, slurred speech, altered physical coordination, or any other factor that would reasonably lead to making such a determination. The faculty or staff member shall consent to being escorted to the administrative offices and to providing the breath samples as required by the Policy. The lower of the two reading shall be considered the amount of blood-alcohol content, the consent form obtained for alcohol testing and all paperwork associated with obtaining breath, hair, and/or urine samples shall become part of the Ridgecroft School faculty or staff member's confidential employee file, in the event that the Headmaster determines a breath, hair, and/or urine sample for alcohol testing is required.
- (3) New Hire Employees – All "New Hire" Employees may have an initial "new employee" alcohol test by breath, hair, and/or urine sampling at the discretion of the Headmaster. A suitable breath, hair, and/or urine sample will be obtained for analysis by the testing organization. Upon reviewing "new Hire" employee contracts with the potential employee, the Headmaster shall withhold his signature on the contract until such time a negative test result has been reported. Upon receiving a negative test result, the Headmaster may sign and date the contract for official validation. A positive test will result in immediate voiding of the employment contract and any offer for employment will be withdrawn. Following initial "new employee" testing, further testing will be conducted based upon the reasonable basis testing criteria or by random testing criteria as stated in the Policy.

Controlled Substances

Any use, possession, or purchase of an unlawful controlled substance or a controlled substance by any Ridgecroft School faculty or staff member during the time they are performing their duties in the direct supervision or teaching of students, is a violation of this Policy. Furthermore, it is a violation of this Policy. Furthermore, it is a violation of this Policy for any faculty or staff member to have any amount of a controlled substance in his/her body while performing said duties while at Ridgecroft School or at any Ridgecroft School event, unless a valid, proper written medical authorization previously provided to the administration, is in the faculty or staff member's confidential employee file.

- (1) Random Testing – Screening for the use of any unlawful controlled substance or controlled substance shall be conducted at Ridgecroft utilizing a procedure whereby on random dates and events throughout the school year, a number of faculty and staff as determined by the Headmaster, shall be selected randomly from a pool consisting of the total faculty and staff population of Ridgecroft School, who will be randomly selected using their employee identification number. The random method for selection is at the discretion of the Headmaster. Consequently, it is possible that a faculty or staff member may be tested more than once a year. Conversely, it is also possible that a faculty or staff member may not be tested at all.
- (2) Reasonable Basis Testing – When it reasonably appears to a Ridgecroft faculty or staff member, or other individual, that is in the presence of a Ridgecroft School faculty or staff member who is present on Ridgecroft School property or at a Ridgecroft School event while appearing to have a controlled substance in his/her body, the faculty or staff member suspected to be under the influence of a controlled substance shall consent to being escorted to the administrative office or other appropriate place, where the faculty or staff member shall provide a hair and/or urine sample for testing by the designated testing organization in the event the Headmaster determines a sample is required. In making the determination that a faculty or staff member may be under the influence of a controlled substance, a Ridgecroft School faculty or staff member, or other individual in the presence of the faculty or staff member suspected to be under the influence of a controlled substance, may consider the faculty or staff member's conduct, his/her physical appearance, eye abnormalities such as: redness, glassiness, or blood-shot appearance, odor of body or breath, slurred speech, altered physical coordination, or any other factor that would reasonably lead to making such a determination. The consent form obtained for drug testing and all pepper work associated with obtaining hair and/or urine samples shall become part of the faculty or staff member's confidential employee file, in the event that the Headmaster determines a hair and/or urine sample for drug testing is required.
- (3) New Hire Employee – All "New Hire" Employees will have an initial "new employee" drug test by hair and/or urine sampling at the discretion of the Headmaster. A suitable hair or urine sample for analysis by the testing organization will be obtained. Upon reviewing "new hire" contracts with the potential employee, the Headmaster shall withhold his signature on the contract, until such time a negative test result has been reported. Upon receiving a negative test result, the Headmaster may sign and date the contract for official validation. A positive test will result in immediate voiding of the employment contract and any offer for employment will be withdrawn. Following initial "new employee" testing, further testing will be based on the reasonable basis testing criteria or by random testing criteria as stated in the Policy.

Ridgecroft School shall employ the services of an independent organization qualified to conduct such drug testing for the purpose of coordinating and analyzing suitable hair, and/or urine samples. Breath, hair, and/or urine samples may be obtained at Ridgecroft School; however the right to have off site sampling obtained is reserved and is at the discretion of the Headmaster.

Notification of Test Results

Alcohol – The Headmaster shall provide the faculty or staff member with written notification of a positive result immediately. Notification will not be provided if a negative result is obtained. The Intoxilyzer printout of all test results shall be maintained in the faculty or staff member's confidential employee file.

Controlled Substance – The Testing Organization shall notify the Headmaster of each test result. When results are received, the faculty or staff member will receive written notification of the test result in a timely manner. The notification shall include the name, address, and telephone number of the Testing Organization that handled the hair or urine sample.

Responsibility

In regards to staff, Ridgcroft School has a zero tolerance policy. Any positive test results for alcohol or drugs are a violation of this Policy and will result in the immediate dismissal of the faculty or staff member's employment with Ridgcroft School. In the case of new hires, the contract will not be validated by the Headmaster and any offer regarding employment will be withdrawn.

Confidentially

Ridgcroft will make reasonable attempts to keep information regarding alcohol and drug tests, and any resulting disciplinary actions confidential.

Appeal of Controlled Substance Test Results

If the faculty or staff member is on the opinion that the alcohol or drug test results are erroneous, the faculty or staff member must notify the Headmaster in writing, which notification shall also set forth whether the faculty or staff member intends to request that a second test sample be obtained. When a faculty or staff member requests for a second test sample to be obtained, such request shall be made by the faculty or staff directly to the Testing Organization. The second test must be taken within three (3) days of the faculty or staff member's receipt of the written notification of the initial positive result. The cost for the second test shall be borne by the faculty or staff member. If the second test results vary from the first test results, the Headmaster and the faculty or staff member from the sample was taken, will discuss what further action shall be taken. The date the faculty or staff member receives written notice shall be counted for purposes of calculating the three-day period, however, Saturdays, Sundays, and Holidays shall not be counted.

SECTION 9 – SCHOOL SAFETY
9-6 POLICY ON CHILD PROTECTION

Ridgcroft School seeks to provide a safe and secure environment for the children who participate in our programs and activities. By implementing the below practices, our goal is to protect the children of Ridgcroft School from incidents of misconduct or inappropriate behavior while also protecting our staff and volunteers (workers) from false accusations.

Definitions

For purposes of this policy, the terms “child” or “children” include all persons enrolled at Ridgcroft School regardless of age. The term “worker” includes both paid and unpaid persons who work with children. The term “volunteer” means anyone involved in a day care or school, in overnight activities involving minors, in counseling of minors, or in one-on-one mentoring of minors.

Selection of Workers

All persons who desire to work with the children participating in our programs and activities will be screened. This screening includes the following:

- (1) Six Month Rule – No person will be considered for any volunteer position involving contact with minors until she/he has been involved with Ridgcroft School for a minimum of six (6) months. This time of interaction between our leadership and the applicant allows for better evaluation and suitability of the applicant for working with children.
- (2) Written Application – All persons seeking to work with children must complete and sign a written application in a form to be supplied by us. The application will request basic information from the applicant and will inquire into previous experience with children, previous Ridgcroft School affiliation, reference and employment information, as well as disclosure of any previous criminal convictions. The application form will be maintained in confidence on file at Ridgcroft School.

- (3) Personal Interview – Upon completion of the application, a face-to-face interview may be scheduled with the applicant to discuss his/her suitability for the position.
- (4) Reference Checks – Before an applicant is permitted to work with children, at least two of the applicants' references will be checked. These references should be an institutional nature as opposed to personal or family references, preferably from organizations where the applicant has worked with children in the past. Documentation of the reference checks will be maintained in confidence on file at Ridgcroft School.
- (5) Criminal Background Check – A national criminal background check is required for all employees (regardless of position) and “volunteers” as defined above.

Before a background check is run, prospective workers will be asked to sign an authorization form allowing the school to run the check. If an individual declines to sign the authorization form, she/he will be unable to work with children.

A disqualifying offense that will keep an individual from working with children will be determined by Ridgcroft School on a case-by-case basis in light of all the surrounding circumstances. Generally, convictions for an offense involving children and/or for offenses involving violence, dishonesty, illegal substances, indecency and any conduct contrary to our mission will preclude someone from being permitted to work with children. Failure to disclose a criminal conviction on the application form will also be a qualifying event. The background check authorization form and results will be maintained in confidence on file at Ridgcroft School.

Two Adult Rule

It is our goal that a minimum of two unrelated adult workers will be in attendance at all times when children are being supervised during our programs and activities. Some classes may have only one adult teacher in attendance during the class session; in these instances, doors to the classroom should remain open when practical and there should be no fewer than three students with the adult teacher. We do not allow minors to be alone with one adult on our premises or in any sponsored activity unless in a counseling situation.

Responding to Allegations of Child Abuse

For purposes of this policy, “child abuse” is any action (or lack of action) that endangers or harms a child’s physical, psychological or emotional health and development. Child abuse occurs in different ways and includes the following:

1. Physical abuse – any physical injury to a child that is not accidental, such as beating, shaking, burns, and biting.
2. Emotional abuse – emotional injury when the child is not nurtured or provided with love and security, such as an environment of constant criticism, belittling and persistent teasing.
3. Sexual abuse – any sexual activity between a child and an adult or between a child and another child at least four years older than the victim, including activities such as fondling, exhibitionism, intercourse, incest, and pornography.
4. Neglect – depriving a child of his or her essential needs, such as adequate food, water, shelter, and medical care.

Childcare workers may have the opportunity to become aware of abuse or neglect of the children under our care. In the event that an individual involved in the care of children at Ridgcroft School becomes aware of suspected abuse or neglect of a child under his/her care, this should be reported immediately to the Headmaster for further action, including reporting to authorities as may be mandated by state law.

In the event that an incident of abuse or neglect is alleged to have occurred at Ridgcroft School or during our sponsored programs or activities, the following procedure shall be followed:

1. The parent or guardian of the child will be notified.
2. The staff or staff member alleged to be the perpetrator of the abuse or misconduct will immediately be placed on leave pending an investigation and instructed to remain away from the premises during

the investigation. He or she should be instructed to have no contact with the victim or with witnesses.

5. At any time or place when the behavior has a direct and immediate effect on maintaining order and discipline in the school

C. DEFINITIONS

For the purposes of this policy, the following definitions apply:

1. Discrimination

Discrimination means any act or failure to act that unreasonably and unfavorably differentiates treatment of others based solely on their membership in a socially distinct group or category, such as race, ethnicity, sex, pregnancy, religion age or disability. Discrimination may be intentional or unintentional.

2. Harassment and Bullying

a. Harassment or bullying behavior is any pattern of gestures or written, electronic, or verbal communications, or any physical act or any threatening communication that:

1. Places a student or school employee in actual or reasonable fear of harm to his or her person or damage to his or her property; or
2. Creates or is certain to create a hostile environment by substantially interfering with or comparing a student's educational performance, opportunities, or

benefits or by adversely altering the conditions of an employee's employment.

"Hostile environment" means that the victim subjectively views the conduct as harassment or bullying and that the conduct is objectively severe or pervasive enough that a reasonable person would agree that it is harassment or bullying. A hostile environment may be created through pervasive or persistent misbehavior or a single incident, if sufficiently severe.

Harassment and bullying include, but are not limited to, behavior described above that is reasonably perceived as being motivated by any actual or perceived differentiating characteristic or motivated by an individual's association with a person who has or is perceived to have a differentiating characteristic, such as race, color, religion, ancestry, national origin, gender, socioeconomic status, academic status, gender identity, physical appearance, sexual orientation, or mental, physical, developmental, or sensory disability. Examples of behavior that may constitute bullying or harassment include, but are not limited to, verbal taunts, name-calling and put-downs, epithets, derogatory comments or slurs, lewd propositions, exclusion from peer groups, extortion of money or possessions, implied or stated threats, assault, impeding or blocking movement, offensive touching, or any physical interference with normal work or movement, and visual insults, such as derogatory posters or cartoons. Legitimate age-appropriate pedagogical techniques are not considered harassment or bullying.

Harassment, including sexual or gender-based harassment, is not limited to specific situations or relationships. It may occur between fellow students or co-workers, between supervisors and subordinates, between employees and students, or between non-employees, including visitors, and employees or students. Harassment may occur between members of the opposite sex or the same sex.

b. Sexual harassment is one type of harassment. Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment when:

1. Submission to the conduct is made, either explicitly or implicitly, a term or condition of any individual's employment, academic progress, or completion of a school-related activity;
2. Submission to or rejection of such conduct is used as the basis for employment decisions affecting the individual, or in the case of a student submission to or rejection of such conduct is used in evaluation of the student's performance within a course of study or other school-related activity; or
3. Such conduct is sufficiently severe, persistent, or pervasive that it has the purpose or effect of unreasonably interfering with any employee's work or performance or a student's educational performance, limiting a student's ability to participate in or benefit from an educational program or environment, or creating an abusive, intimidating, hostile, or offensive work or education environment.

Sexually harassing conduct includes, but is not limited to, deliberate, unwelcome touching that has sexual connotations or is of a sexual nature, suggestions or demands for sexual involvement accompanied by implied or overt promises of preferential treatment or threats, pressure for sexual activity, continued or repeated offensive sexual flirtations, advances or propositions, continued or repeated verbal remarks about an individual's body, sexually degrading words used toward an individual or to describe an individual, sexual assault, sexual violence, or the display of sexually suggestive drawings, objects, pictures or written materials. Acts of verbal, nonverbal, or physical aggression, intimidation, or hostility based on sex, but not involving sexual activity or language, may be combined with incidents of sexually harassing conduct to determine if the incidents of sexually harassing conduct are sufficiently serious to create a sexually hostile environment.

c. Gender-based harassment is also a type of harassment. Gender-based harassment may include acts of verbal, non-verbal, or physical aggression, intimidation, or hostility based on sex, or sex-stereotyping but not involving conduct of a sexual nature.

D. REPORTING AND INVESTIGATING COMPLAINTS OF DISCRIMINATION, HARASSMENT, OR BULLYING

Information about this policy and the related complaint procedure must be included in the training plan.

As funds are available, the board will provide additional training for students, employees, and volunteers who have significant contact with students regarding the board's efforts to address discrimination, harassment, and bullying and will create programs to address these issues. The training or programs should (1) provide examples of behavior that constitutes discrimination, harassment, or bullying; (2) teach employees to identify groups that may be the target of discrimination, harassment, or bullying; and (3) train school employees to be alert to locations where such behavior may occur, including locations within school buildings, on school grounds outside of the school, on cell phones, and on the Internet.
