

Supplies for ALL of Mrs. Jenks Johnson's Math Classes

3 ring binder - 2.5 to 3 inches with 5 tab dividers

Notebook paper and Graph paper

"Hole bandaids" and pencils

Calculators

Every student needs to have a simple 4-function calculator.

(You can purchase these at the Dollar Tree. Get more than one.)

The calculator that they will use from Algebra I - AP Calculus is:

TI-84 Plus CE

(This calculator usually goes on sale in August.)

If the calculator they own runs on batteries, please buy them an extra pack of batteries to put in their backpack. If the calculator they own requires a recharging cord, please encourage them to carry it to school in their backpack.

Classroom supplies are always welcome!

Especially, Paper Towels and Clorox Wipes

I presently have enough tissues and hand sanitizer.

Please try to buy **extra packs of college ruled paper and pencils.**

(Students run out of these last two items quickly, and I would love to have some extras in the classroom so they don't have to borrow from their friends.)
