

Supplies for Mrs. Johnson's Math Classes

3 ring binder – 2.5 to 3 inches with 5 tab dividers

Notebook paper and Graph paper

“Hole bandaids”

Pencils

Calculators

Every student needs to have a basic 4-function calculator.

(You can purchase these at the Dollar Tree.)

The calculator that they will use throughout high school is:

TI-84 Plus CE

(This calculator usually goes on sale in August.)

If the calculator they own runs on batteries, please buy them an extra pack of batteries to put in their backpack. If the calculator they own needs a recharging cord, please encourage them to carry it to school in their backpack.

Classroom supplies are always welcome!

Paper Towels and Tissues

Clorox wipes and Hand sanitizer

Extra packs of college ruled paper and pencils

(For some reason students run out of these last items quickly and always seem to want to borrow from their friends.)
