August 7, 2026

Dear Ridgecroft Family,

It is time again to begin a new and exciting school year. Welcome to '26 – '27. I hope that you and your family members have shared quality time and experiences with a focus on being together. Preparations for the 2026 – 2027 academic year have been taking place since January of this year. The summer has been filled with welcoming new teachers and students, making new classroom assignments, getting classrooms cleaned and ready, as well as meeting the other numerous needs of the campus. We will continue this work until opening day, focusing on a welcoming Ridgecroft environment and a quality and rigorous curriculum, with numerous extracurricular opportunities to our students.

Last year Cognia, Inc., our accreditation agency, confirmed that Ridgecroft School embraces the whole child, acknowledging the social-emotional needs of students, while offering a safe and nurturing environment with a focus on rigorous curriculum and extracurricular activities. Our whole staff has already begun its work in order to ensure this solid school experience.

All of us here at Ridgecroft believe that every student deserves a quality education. This only happens when the school, our families, and community work together for the best outcomes for our students. As we begin this new school year, let us all work to cooperate with each other to ensure that Ridgecroft School remains the premier independent school in our area.

Please know that our doors are always open, and we welcome the opportunity to discuss any issues or concerns you might have, or just come by and visit!

Russell H. Johnson

Head of School
