

Ridgecroft School

10/01/2024

AHERA Annual Notification to students, faculty and staff, parents/guardians.

Asbestos Hazard Emergency Response Act (AHERA) requires that Ridgecroft School give an annual update about any asbestos that may be in our school. We contract with a professional contractor to sample multiple locations around our school to test for asbestos. The results are compiled in our Management Plan and are available for review during normal business hours upon prior notification.

Please contact the school to arrange a time if you wish to review the Management Plan.
